- 2. Council Bill 05-2021** – An Ordinance prohibiting deadly weapons on City property and making other amendments consistent with state weapons laws

Councilmember Stites introduced Council Bill No. 05-2021

A growing concern exists today with the increase in gun and deadly weapon violence throughout the United States. These acts of violence contribute to increased personal safety concerns for visitors and guests at City-owned properties and for employees of the City. City-owned buildings and property should be considered safe, available, and open. The lack of deadly weapons in those settings contributes to the sense of safety of visitors, guests, elected officials and employees. Sections 16-81 and 17-53 of the Wheat Ridge Code of Laws currently addresses “weapons” but does not prohibit the possession of deadly weapons on City-owned property.

Mayor Starker opened the public hearing at 7:26 p.m.

Staff Report

City Attorney Gerald Dahl reviewed the background on the item and noted that Municipalities in Colorado have the authority to regulate the possession of certain firearms and deadly weapons in specific settings. Many Colorado municipalities have had similar prohibitions against openly carrying firearms and other deadly weapons in public settings for a number of years, including Lakewood, Arvada, Golden, Denver and Jefferson County (see Attachment 2 for full list).

Two practices are currently in effect in City facilities. First, deadly weapons and other bladed objects including scissors and pocketknives are prohibited in municipal court

under the inherent power of the court's rulemaking authority. Visitors are screened by x-ray machine and metal detectors upon entry to court. Second, for the safety of visitors and guests, signage is posted at the Wheat Ridge Recreation Center and City Hall advising patrons that the open carry of firearms is prohibited; however, the City does not have legal authority to enforce this.

Under state law, the definition of a deadly weapon includes not only firearms but also a "knife, bludgeon, or any other weapon, device, instrument, material, or substance, whether animate or inanimate, that in the manner it is used or intended to be used, is capable of producing death or serious bodily injury." C.R.S. § 18-1-901.

Due to protection provided under state law, the prohibition cannot extend to individuals who are carrying a concealed firearm and who possess a concealed carry permit, unless the City takes the additional step of providing metal detectors with security personnel.

Public Comment

No one came forward to speak.

Council Questions and comments

Councilmembers asked whether this proposed ordinance addresses the propriety of a person walking along a public street openly carrying a firearm or other deadly weapon. Ms. Dahl and Mr. Goff gave a detailed answer to the question.

Councilmember Urban asked about the language surrounding the magnetometer used in the lobby of City Hall and whether the ordinance would mean that all persons entering City Hall would be checked for weapons. Mr. Goff and Mr. Dahl gave a detailed response.

Does this draft ordinance impact a person with a valid concealed carry permit? No; state law does not allow the City to restrict concealed carry (except in Municipal Court).

Mayor Starker closed the public hearing.

Motion by Councilmember Stites to approve Council Bill 05-2021 - An Ordinance prohibiting deadly weapons on City property and making other amendments consistent with state weapons laws, on second reading, and that it takes effect fifteen days after final publication, seconded by Councilmember Urban, motion carried 8-0.

3. Council Bill 07-2021 – An Ordinance amending Section 16-103 of the Wheat Ridge Code of Laws, concerning regulation of noise

Councilmember Nosler Beck introduced Council Bill No. 07-2021

City Council approved Ordinance 1697 on August 24, 2020, an ordinance amending Section 16-103 of the Wheat Ridge Code of Laws concerning the regulation of noise. The Ordinance, among other things, established a permit process which allows up to six

outdoor amplified sound events for the same location in a twelve-month period. Consensus was reached by City Council at the April 5, 2021 study session to amend the ordinance to increase the number of individual permitted sound events from six to eight in a calendar year and to create a special permit process for all sound events over eight in a calendar year and make other clarifying amendments as described in the Prior Action section of the staff report.

Mayor Starker opened the public hearing at 7:36 p.m.

Staff Report

City Attorney Gerald Dahl reviewed Council's prior actions on the item, including past study session and council bills.

Mr. Goff listed the changes that this revision to the Noise Ordinance enacts, including increasing the number of Amplified Sound Event Permits from 6 to 8 for any location and changes to how and where sound will be measured.

Public Comment

Laura Jenkins, 9715 W. 43rd. Avenue. Called to thank the Council for its work on this revised ordinance. She asked how the Special Use Permit process will work, specifically with respect to one event at a time vs. multiple events. She urged Council to clarify that language. Could a business use the SUP avenue to hold 30 or 40 events during the summer?

Mr. Goff replied to Ms. Jenkins's questions, explaining how the SUP process will work, in an effort to maintain fairness to businesses and residents, and to allow for individualized conditions to be imposed in any given location given that location's unique attributes.

Aaron McCallister, 9701 W. 44th Avenue (T-Bird Roadhouse). He called to comment on the new ordinance and the changes. He also disclosed his experiences as a business owner complying with the Noise Ordinance. He asserted that residents even near his business will not hear sounds louder than typical suburban neighborhood experiences from traffic and machinery like lawn mowers and leaf blowers. He supports the changes to the ordinance. He does not feel that our residents understand their rights under the Ordinance, or their responsibilities to get a permit for a party on their own property or in a street event.

Mayor Starker closed the public hearing.

Council Questions and comments

Councilmember Weaver addressed some of the comments the callers made during the Public Comment portion of this hearing. She noted that if she holds an amplified sound event in her garden and makes too much noise then any impacted resident can call the WR Police Department, who will respond and enforce the Noise Ordinance. She also

noted that she could hold such an event, if it complies with the law, up to eight times a year.

Do Amplified Sound Event Permits have a cost? No. How much time is involved to issue a permit and what does it cost the City? City Clerk Kirkpatrick gave a detailed reply.

Councilmember Hultin asked detailed questions about the location and methods to measure sound emitting from a residence or business. Mr. Goff and Chief Murtha replied with detailed reasons for their recommendation that these changes get incorporated into this new ordinance language. The officers responding to calls for service reported their experiences with enforcing the current Noise Ordinance language.

Councilmember Hultin asked whether an SUP applicant would have to disclose when making application details like how many events, the types of events and similar information so that the City Manager can make a determination in individual cases.

Mr. Goff responded that he would have the option to ask for more detailed information when someone applies for a SUP.

Councilmember Hultin asked how the SUP could be enforced if a permittee violates the ordinance repeatedly or egregiously. Mr. Dahl replied that the City Manager has the power to suspend or revoke the SUP, and in extreme cases initiate the process of suspending or revoking the offender's Wheat Ridge Business License.

Motion by Councilmember Nosler Beck to approve Council Bill 07-2021 - An Ordinance amending Section 16-103 of the Wheat Ridge Code of Laws, concerning regulation of noise, on second reading, and that it takes effect fifteen days after final publication, seconded by Councilmember Hoppe, motion carried.

In discussion of the motion, Councilmember Hoppe responded to those who think the ordinance has been too rushed. She recounted the several times beginning in 2019 that Council has discussed noise ordinances.

4. Resolution No. 28-2021 – A Resolution removing a Memorandum of Action making an historic designation for the Joy Williams barn

Councilmember Dozeman introduced Resolution No. 28-2021

An historic designation for a wooden barn structure at 11460 (now 11480) W. 44th Avenue was approved by the City Council in 1998, pursuant to the City's historic preservation Article 9 in Chapter 26 of the Code of Laws. As required by the Code, a Memorandum of that designation was recorded with the Jefferson County Clerk & Recorder. However, the Code does not require that the grantee or grantor of such a designation be listed on the recorded Memorandum, and a subsequent purchaser of the property took title without notice of the designation. The owner has requested the designation be removed due to this defect in the original Memorandum.

Mayor Starker opened the quasi-judicial public hearing at 8:04 p.m. The Mayor reminded the public that by speaking before Council during this hearing they are bound by law to speak the truth, all of the truth and nothing but the truth.

Staff Report

Mr. Dahl, reprised the discussions, background, and opined that, because the original Memorandum of historic designation did not reflect the grantor or grantee of such designation, the designation was without force or effect, and should be removed to establish a clear title to the property so that it can be conveyed cleanly.

Mr. Dahl commented that he supports this action for a variety of legal reasons.

Public Comment

Douglas Brown, Esq. representing the owner of the subject property, a legal entity called *It's for the Birds*. Mr. Brown explained why the designation needs to be removed for benefit of his client.

No others came forward to speak. The Mayor closed the public comment portion of the public hearing.

Council Questions and comments

Based on previous discussions of this resolution, Council had no further questions or comments.

Motion by Councilmember Dozeman to approve Resolution No. 28-2021 – A Resolution removing a Memorandum of Action making an historic designation for the Joy Williams barn, seconded by Councilmember Urban; motion carried 8-0.
