ADJOURNMENT

## Memorandum

**TO:** Mayor and City Council

**THROUGH:** Patrick Goff, City Manager

**FROM:** Steve Art, Renewal Wheat Ridge Executive Director

**DATE:** April 15, 2019

**SUBJECT:** Regency Cooperation Agreement

#### ITEM:

On March 19, 2019, Renewal Wheat Ridge (RWR) entered into a Tax Increment Financing Agreement (the Agreement) with Regency Centers, the owners of the Applewood Shopping Center, for redevelopment of the vacant Walmart building at the southeast corner of 38<sup>th</sup> Avenue and Youngfield Street. The Agreement utilizes property and sales tax increment to finance public improvements associated with the redevelopment project. A request is being made of City Council to adopt a resolution approving a Cooperation Agreement between the City and RWR to share up to a maximum of \$2,000,874 in sales tax increment generated from the project for a period of 5 years.

#### **PRIOR ACTION:**

This is the first briefing to City Council on this project. On March 19, 2019, RWR adopted a resolution approving a Redevelopment Agreement with Regency Centers.

#### **FINANCIAL IMPACT:**

If approved, the City will share one (1.0) cent of its three and one-half (3½) cent sales tax generated from this project in an amount not-to-exceed \$2,000,874. At stabilization, redevelopment of the Walmart site is estimated to generate just under \$1.0 million per year in City sales tax, increasing to roughly \$2.0 million per year in 2040 for a total of just over \$31 million over the next 21 years.

#### **BACKGROUND:**

When Walmart ceased operations in July 2017, Regency, began plans to re-tenant the building. In early 2018, Regency entered into letters of intent with Hobby Lobby, Sierra Trading Post, HomeGoods and Ulta to backfill the vacant Walmart space. To attract these quality, national retail tenants, significant improvements to the 35-year old structure and site would be necessary.

The new uses would require dividing the space into five separate spaces for four retail tenants

and a yet to be determined 17,000 sq. ft. space. The redevelopment also includes a complete reface of the building façade, reconstruction of the parking lot for more efficient use, creation of a new retail pad at the corner of 38<sup>th</sup> and Youngfield, and streetscape improvements along Youngfield and 38th. The City is also utilizing a portion of its 1% Xcel funding to underground all the utilities from 32<sup>nd</sup> and Youngfield to the terminus of the old Walmart building on 38<sup>th</sup> Avenue.

In total, Regency will invest approximately \$20 million into this redevelopment project. Over \$5.4 million of this investment has been determined to be eligible public improvements including general site improvements, Youngfield streetscape and signalized intersection improvements, façade upgrades, wet utilities, 38<sup>th</sup> Avenue ROW improvements, demolition of blighted buildings and environmental remediation of asbestos. Regency has requested that RWR assist in paying these eligible public improvements through a property tax TIF Agreement in the amount \$6.1 million and sales tax TIF Agreement in the amount \$2.0 million.

In order for RWR to consider the use of TIF, the project is required to demonstrate a need for public assistance. RWR hired Economic and Planning Systems (EPS) to conduct an analysis of the project and the need for the use of TIF for this project. For a project of this type, a typical developer's return on cost is somewhere between 6-8%. If this redevelopment project received no public assistance through the TIF, it would generate a return of 5.13%, which equates to a financial gap of \$4,878,360 in present value (real value). In order for this project to achieve a 6.75% return, a subsidy totaling \$8.1 million dollars in nominal dollars or \$4,878,360 in present value dollars is required for the developer to meet a 6.75% return.

In addition to the Redevelopment Agreement between RWR and Regency, a Cooperation Agreement between RWR and the City is necessary to cause the City to deposit the pledged sales tax increment revenues into a special fund of RWR to reimburse Regence for eligible public improvements associated with the redevelopment project.

Regency Centers will provide additional information about the project and EPS will summarize the economic analysis of this project in more detail at the April 15<sup>th</sup> study session.

The design and construction of the Project shall comply in all material respects with all applicable codes and regulations of entities having jurisdiction, including the City Requirements. Notwithstanding any provisions to the contrary contained herein, the Developer shall be entitled to reimbursement for Eligible Costs incurred in connection with an Eligible Improvement only if such Eligible Improvement complies with City Requirements.

If Developer proceeds with the Project, Developer will pay or cause to be paid all required fees and costs, including those imposed by the City, in connection with the design, construction, applicable warranty requirements, and use of the Project.

The Parties agree that if the Developer has not Commenced Construction of the Project by June 1, 2019, that this shall not constitute an Event of Default hereunder, but that the Authority shall have the right to terminate this Agreement as set forth in Section 17 prior to the date Developer has Commenced Construction.

Excess liability shall be

covered in an amount equal to Ten Million Dollars (\$10,000,000) per occurrence/ Ten Million Dollars (\$10,000,000) aggregate.

8. <u>INDEMNIFICATION</u>. # PROJECT EVALUATION CRITERIA

#### APPLEWOOD VILLAGE REDEVELOPMENT

Three primary criteria for evaluating project requests for TIF:

- 1. Eligible Costs
- 2. Developer Returns ("But-for" analysis)
- 3. Project Revenue Generation Potential

# #1 - ELIGIBLE COSTS

#### APPLEWOOD REDEVELOPMENT

Description	Total	% of Total
General Site Improvements	\$1,978,670	33.40%
Youngfield Streetscape & Signalized Intersection Improvements Budget	t \$1,172,898	19.80%
Wal-Mart Building - Façade Upgrade (50% of total cost)	\$574,912	19.40%
Wet Utilities	\$624,952	10.50%
38th Avenue ROW Improvements	\$609,943	10.30%
Demolition of Blighted Buildings	\$295,000	5.00%
Environmental Remediation (asbestos abatement)	\$100,000	1.70%
TOTAL PUBLIC IMPROVEMENTS	\$5,356,375	100.0%

# #2 – DEVELOPER RETURNS ("BUT FOR" ANALYSIS)

#### APPLEWOOD VILLAGE

PURPOSE: To use market-based metrics of return to evaluate the need for public financing and identity the extent of gap closure funding needed to make the project feasible.

#### **METHODOLOGY**

- 1. Summarize total project costs and annual net operating income (NOI)
- 2. Determine appropriate performance metric
  - For the purposes of this analysis we are using return on cost (Annual NOI / Total Cost)
  - Typical developer target = 6.0% to 8.0%
  - This project = 6.75%
- 3. Estimate amount of public subsidy necessary for developer to realize an appropriate rate of return

## **DEVELOPER RETURN**

#### WITH AND WITHOUT PUBLIC INVESTMENT

#### PROJECT COST

Includes site work, infrastructure, architecture & engineering, vertical construction, and others.

#### **ANNUAL REVENUE**

- Assumes a weighted average rental rate of \$9.00/sf (NNN) and a stabilized vacancy rate of 7 0%
- Rental rates reflects current I OIs that the developer has received from potential tenants

**DEVELOPER RETURN GAP ESTIMATE** 

= \$4.88 million

#### **ELIGIBLE COST ESTIMATE**

= \$5.36 million (not a limiting factor)

#### POTENTIAL FUNDING SOURCES

#### Property Tax Increment

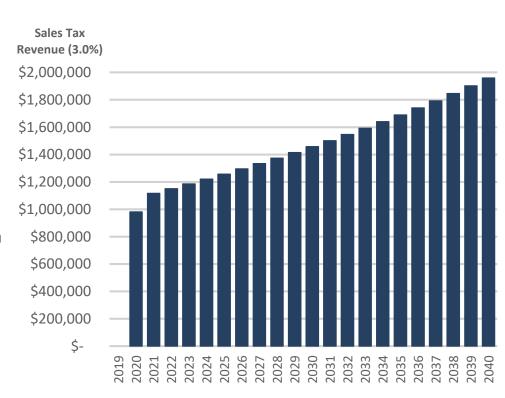

- The URA has approved the use of property tax increment to fund eligible public improvements.
- The URA board has agreed to provide the Project with 100% of property tax increment through 2040. The present value of the future property tax increment revenues are estimated at \$3.25 million. There is a remaining gap of \$1.63 million.

#### Sales Tax Revenue

- The Wheat Ridge City Council can approve the use of sales tax generated by the new development to fund eligible improvements and close the remaining gap.
- Potential sales tax sharing strategy:
  - 1.0% through 2025 (total City tax rate is 3.5%)

#### TOTAL SALES TAX REVENUE

- Average Annual Sales Tax Revenue = \$1.35 million (based on 3.0% tax rate)
- Total Revenue through 2040 = \$31.0 million
- This analysis is solely focused on the additional sales tax revenue generated by the redeveloped portion of the site
- While it is outside the scope of this analysis, the redevelopment of this portion of the center is likely to have a positive impact on sales in other areas of the center
- If sales increase by 5% elsewhere in the center, annual sales tax revenues could increase by roughly \$160,000 per year or a total of \$3.7 million through 2040.

#### NOMINAL VS REAL VALUE OF FUTURE PUBLIC REVENUES

- This analysis accounts for the nominal and real value of future public revenues.
- The real value or present value of future revenues is used when determining the total amount of public revenues required to close a project gap.
- Future public revenues are discounted at a 5.0% rate to account for a number of factors that include the following:
  - 5.0% is a rough estimate for the cost of public debt (i.e. the interest rate the City or the URA would have to pay in order to secure financing)
  - Recognizes the fact that the developer will need to fund improvements upfront and finance these costs through a loan that is typically at an interest rate higher than 5.0%
  - Accounts for a certain degree of risk associated with future public revenues (i.e. leasing challenges, economic downturn, etc.)

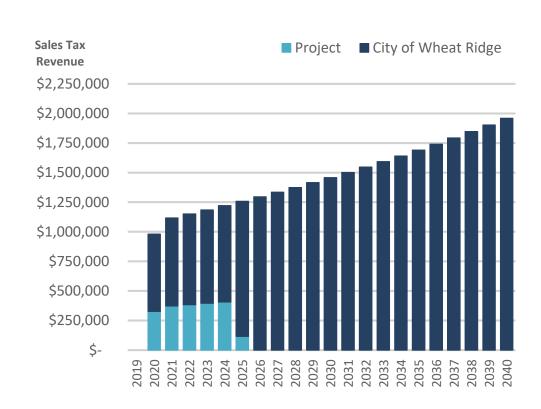

#### SALES TAX SHARING

#### **Project**

- Average Annual Shareback: \$333,479
- Total Shareback: \$2.0 million
- Present Value (@ 5.0%): \$1.63 million

#### City of Wheat Ridge

- Average Annual Revenue: \$1.4 million
- Total Revenue: \$29.0 million
- Present Value (@ 5.0%): \$15.4 million
- Percent of Total Revenue: 94%

#### SUMMARY OF SALES TAX SHARING STRATEGY

	Nominal Value	Present Value
Total Gap	N/A	\$4.88M
Public Revenues		
Property Tax Increment	\$6.14M	\$3.25M
Sales Tax Increment	\$2.00M	<u>\$1.63M</u>
Total Revenue	\$8.14M	\$4.88M

## Memorandum

**TO:** City Council and Mayor

**THROUGH:** Kenneth Johnstone, Community Development Director

Patrick Goff, City Manager

**FROM:** Zareen Tasneem, Planner I

**DATE:** April 5, 2019 (for the April 15<sup>th</sup> Study Session)

**SUBJECT:** Animal Daycare and Outdoor Runs

#### **ISSUE:**

The City's Zoning and Development Code (Chapter 26 of the Municipal Code) recognizes several animal related uses, including:

- Animal veterinary hospitals and clinics, with and without outdoor runs;
- Kennels and catteries; and
- Animal daycares with no outdoor runs.

An "animal daycare" is defined in the City's more recently adopted mixed use zoning codes, but is not listed in the non-mixed use code sections. Historically, City staff has made the administrative determination that the use (animal daycare) is most similar to kennels and to animal veterinary hospitals or clinics, which are defined and are permitted in certain zone districts. As such, animal daycares are regulated in the same manner.

If an animal daycare proposal seeks to have an outdoor activity area/outdoor run, they would be required to be located in the Agricultural-One (A-1), Agricultural-Two (A-2), or Industrial-Employment (I-E) zone district. A more detailed analysis of existing code is provided in the "Background" section of this staff memo.

The issue of land use regulations pertaining to animal daycares, specifically dog daycares with outdoor runs, has risen to prominence in the past year. In July of 2018, a business license was submitted for a dog training facility, with accessory uses of daycare and boarding related to the training facility, to operate out of 4575 Wadsworth Boulevard. The property is zoned Commercial-One (C-1), therefore, the license was approved with the condition that there be no outdoor runs. The business owners have expressed a desire to utilize an outdoor run associated with their training/daycare/boarding operation.

More recently, the City has received inquiries from a business owner about opening a dog daycare with an outdoor run in another C-1 zoned property located at 5883 W. 38<sup>th</sup> Avenue. Similarly, they have expressed interest in having some outdoor activity areas.

This topic was previously discussed at City Council Study Session on December 17, 2018, during which staff received direction from Councilmembers to provide a more in-depth study on animal daycare facilities, and specifically the merits of permitting them through a Special Use Permit in the C-1 zone district.

#### **BACKGROUND:**

#### **Current City Regulations**

As noted above, the Zoning and Development Code recognizes three animal-related uses, which are defined as follows:

- Animal daycare facility. A facility licensed by the State of Colorado where animals may be groomed, trained, exercised, and socialized, but not kept or boarded overnight, bred, sold, or let for hire. (Defined only in the mixed use code in Section 26-1119)
- *Kennel*. Any building, structure or open space devoted in its entirety, or in part, to the raising, boarding or harboring of four (4) or more adult dogs and/or five (5) or more cats. (Defined in Section 26-123)
- *Veterinary hospital*. A place where animals or pets of all types are given medical or surgical treatment. Use as a kennel shall be limited to short-time boarding and shall only be incidental to such hospital use and need not be enclosed within the main building. (Defined in Section 26-123)
- *Veterinary hospital (small animal, enclosed)*. A place where small animals or pets (dogs, cats, birds and the like) are given medical or surgical treatment. Use as a kennel shall be limited to short-time boarding and shall only be incidental to such hospital use. All uses shall be enclosed within a soundproof building which emits no objectionable odor. (Defined in Section 26-123)

The tables below are excerpts from the Code's use charts (P = permitted, S = special use, and a blank denotes that it is not permitted).

Animal-related uses are not permitted in any residential zone district and are specifically prohibited as home-based businesses (Section 26-613). In general, animal-related uses are limited to indoor facilities in most zone districts. Historically, the limitations on outdoor runs have presumably been motivated in some part to separate them from residential neighborhoods where noise impacts could have a negative effect. The purpose of allowing outdoor runs in some districts as a special use is to acknowledge that the use may or may not be compatible depending on the surrounding conditions. The special use permit (SUP) process requires a neighborhood meeting, public notice, and may result in a City Council hearing if objections are received.

#### **Neighboring Cities' Regulations**

Lakewood

In the City of Lakewood, there is only one animal-related use, which is a broadly defined "animal care" category that includes grooming, treating, training, exercising, boarding, and daycare which is permitted as follows:

- Permitted in heavier commercial and industrial districts,
- Permitted in one-acre residential (similar to our agricultural zone),
- Special use in some mixed use districts, and
- Limited use in some mixed use districts (similar to our administratively approved conditional use permit).

Like Wheat Ridge, Lakewood's code includes restrictions on outdoor pens, separation requirements where they are permitted, and even prohibits windows for indoor runs when adjacent to residential neighborhoods.

#### Arvada

The City of Arvada allows two animal facility-related uses: kennel and veterinary offices or clinics. Kennels are permitted mostly in the Clear Creek and planned industrial development zone districts and are conditionally permitted in the agricultural, intense commercial, and light industrial zone districts with public hearing review. All kennels require a "Kennel License," which is valid for one year and subject to renewal per compliance with state and city regulations.

Veterinary offices or clinics are permitted uses in a wider range of commercial zone districts, including in the Olde Town area, and conditional uses in Arvada's agriculture-like zone districts. However, all veterinary offices or clinics are restricted from having outdoor runs and are required to have all facilities within soundproof buildings. Likewise, animal daycare facilities in commercial areas are not allowed to have outdoor runs.

In general, these regulations appear to be very consistent with the current codes in Wheat Ridge.

#### Englewood

The City of Englewood's City Code has a use category called "animal sales and service," which by definition includes animal daycare. It is a permitted use in the industrial zone districts and a limited use in the heavy commercial mixed use zone district. A limited use is approved administratively, similar to Wheat Ridge's conditional use permit.

There is no mention of outdoor runs or pens in the use definitions, nor are there additional regulations. Englewood staff have confirmed animal daycares with outdoor runs have been permitted in industrial zone district and approved as a limited use in commercial zone districts based on the site plan, narrative, and neighborhood context. They are not, however, allowed in or next to any residential use. For animal daycares in the vicinity of a residential use, conditions of approval include six-foot high screening, soundproof walls, and trash enclosures.

While outdoor runs are not mentioned in Englewood's City Code, the process for reviewing an animal daycare with one appears similar to the current codes in Wheat Ridge.

#### Edgewater

In the City of Edgewater, an "animal sales and service" use exists as a conditional use in the heavy commercial zone district. A conditional use permit is approved through a public hearing in front of the City of Edgewater's Planning Commission.

Edgewater has yet to receive an application for an animal daycare. However, their staff has indicated that if a dog daycare with outdoor run were to be proposed, they would most likely allow it only in the heavy commercial zone district and have the City Manager review it on a case-by-case basis. The Edgewater Municipal Code allows uses not specifically listed in the code to be reviewed discretionarily by the City Manager.

Most of the land in Edgewater has a light commercial zoning, with only a handful of parcels zoned for heavier commercial use. Thus, the possibility of an animal daycare with an outdoor run opening in the city would be limited.

Study Session Memo – Animal Daycare and Outdoor Runs Page 5

In conclusion, Edgewater, like Wheat Ridge, treats animal daycares with an outdoor run as an intense commercial land use.

#### Golden

In the City of Golden, animal facility-related uses are allowed as follows:

- Veterinary hospitals and kennels are special uses in the agricultural zone districts.
- Veterinarian hospital (with no outdoor boarding facility or outdoor kennels) is a permitted use in the commercial and heavy industrial zone districts.
- Veterinarian hospital (with outdoor boarding facilities or outdoor kennels) is a special use in the light commercial zone district.

A special use permit is approved through a public hearing in front of the City of Golden's Planning Commission.

Currently, Golden only has one animal daycare facility, which opened more than ten years ago in a heavy commercial corridor. Their staff has indicated that, if a new one with an outdoor run was proposed, it would be allowed in Golden's commercial zone districts, but one with an outdoor kennel would not, as they would view an outdoor run as a supervised brief use, while an outdoor kennel housing dogs presents more of a nuisance. It would, though, have additional conditions of approval.

#### Denver

In Denver, animal daycares are a permitted use with limitations in non-residential areas. They must take place inside a fully enclosed structure. Outdoor runs have been determined to be generally not appropriate in residential areas or in locations where having up to 25 dogs would present a noise nuisance. Animal daycares with outdoor runs require public notification, similar to Wheat Ridge's special use permit process. Through this process, the hours of operation and numbers of dogs allowed are also stipulated.

Although animal daycares with outdoor runs in Denver are allowed conditionally in more commercial areas than Wheat Ridge, they also have more restrictive regulations attached to them.

#### **SUMMARY:**

Other municipalities often classify animal daycare under a broader animal-related use category. In general, animal-related uses are allowed in more intense commercial, industrial, or agricultural areas and less often in light commercial and residential areas.

Like Wheat Ridge, some communities have separation requirements for outdoor pens where they may abut residential uses. Additional regulations can include hours of operation and limitations on the number of dogs though these become harder to enforce and do not eliminate noise nuisance.

#### **NEXT STEPS:**

Enclosed is a copy of the City's zoning map and several exhibits. Exhibit A shows where outdoor runs are currently permitted, namely as a special use in the A-1, A-2, I-E, and PID zone districts (PID zoning most often follows the uses permitted in I-E). The A-1 and A-2 parcels shown on the map are only those that are privately-owned and are one acre in size or larger; the map excludes the A-1 and A-2 parcels that do not fit these criteria and, therefore, would not otherwise be eligible for kennels.

If Council's goal is to become more permissive in the allowance of outdoor runs, it may be possible to allow animal daycare and/or outdoor runs as a special use. This would require neighborhood meetings and would result in a public hearing before Council if objections were received. As noted, that has not been the approach historically because of the desire to protect established residential neighborhoods from potential noise nuisance. Exhibit B shows the relationship between commercial and residential zone districts, particularly, the extent of residentially zoned areas within 600 feet of the C-1 zone district who would be notified as part of the SUP neighborhood meeting requirement.

As Council is aware, many of our commercial corridors have been rezoned in recent years to mixed-use zone districts. This includes City-initiated legislative rezonings of the majority of the Wadsworth and 38<sup>th</sup> Avenue (between Wadsworth and Sheridan) corridors. Because of this, staff felt it appropriate to discuss the topic of animal daycare in relation to the City's mixed-use zone districts. In mixed-use districts, special uses are not utilized. However the concept of a conditional use is defined for uses that may have some heightened site planning issues worthy of additional review. That said, conditional uses are administratively reviewed and approved, with no neighborhood notice process. Therefore, should Council wish to consider allowing animal daycare with outdoor runs in some fashion on mixed-use zoned properties, further discussion would be needed whether and how a neighborhood notification process should be added to the Code. For discussion purposes, we included an exhibit (Exhibit C) that maps all mixed-use zoned properties in the City.

Any animal daycare or kennel operation would require a kennel license from the Police Department and would be subject to the City's general noise and nuisance ordinances. Approval of a special use permit would not protect a business from enforcement of the noise and nuisance ordinances, which could result in enforcement issues in the future.

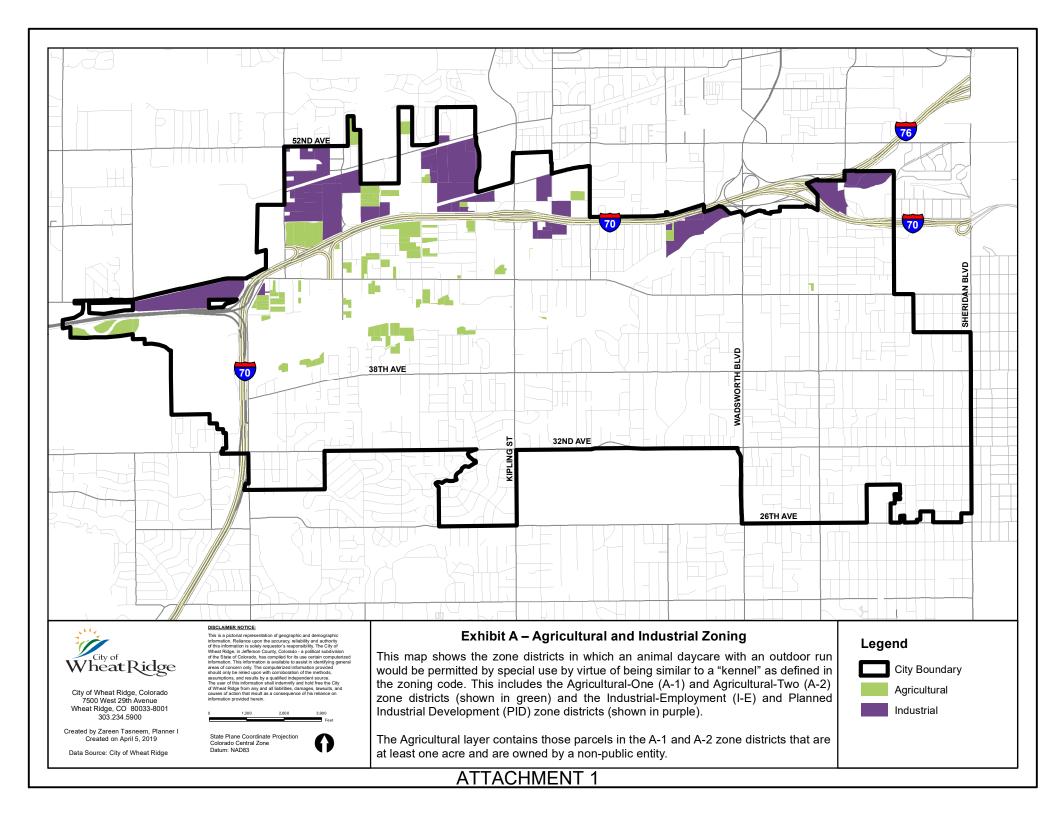

The purpose of the April 15 study session is to discuss the merits of allowing animal daycares with outdoor runs as a special use in the C-1 zone district or possibly other zone districts within the City.

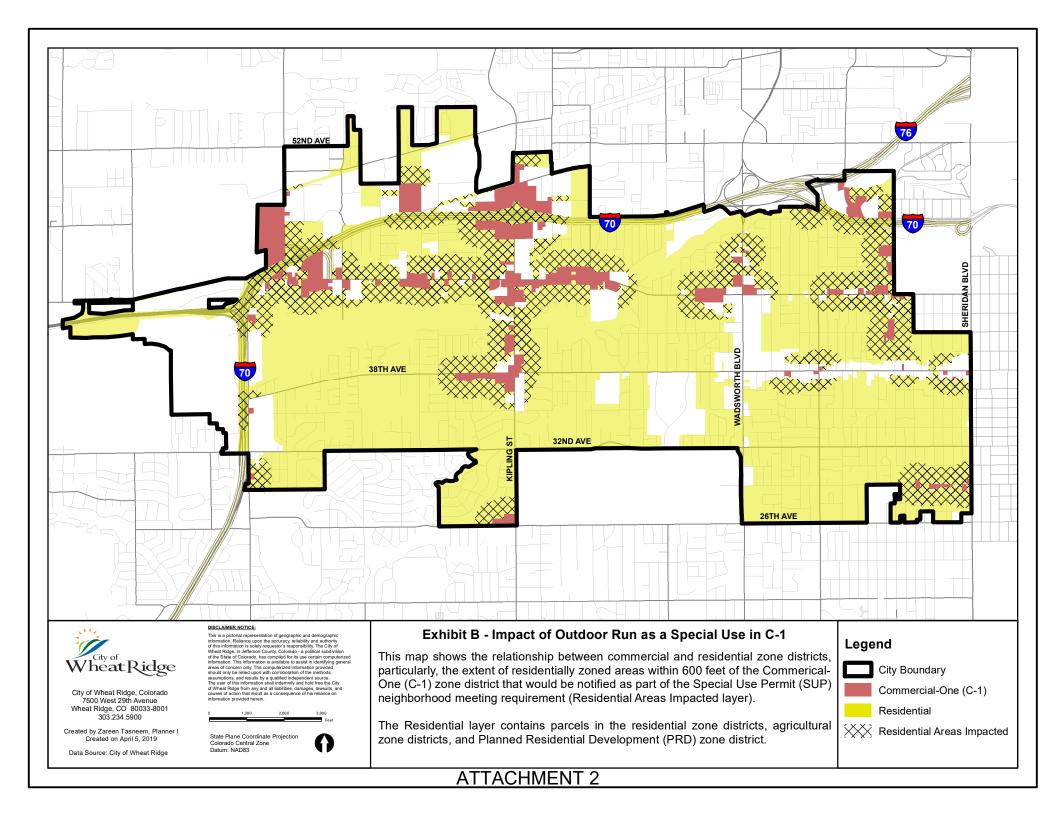

Regardless of whether or not there is Council direction to allow animal daycares with an SUP in C-1, it would be appropriate to modify the code to more explicitly clarify where animal daycare and training is currently permitted or not.

## Memorandum

**TO:** Mayor and City Council

**THROUGH:** Patrick Goff, City Manager

**FROM:** Joyce Manwaring, Parks and Recreation Director

**DATE:** April 15, 2019

**SUBJECT:** Anderson Building Program and Additional Budget Appropriation

Attached is a PowerPoint presentation outlining the new opportunities for providing recreation services at the Anderson Building when renovations are completed. The outdoor pool and Anderson Building will open May 25, Memorial Day weekend, and programming will begin in the Anderson Building on June 3. Included in the PowerPoint presentation is the new programming slated for each area of the building; the fitness room, multi-purpose room and gymnasium, and additional budget requirements and revenue projections.

Prior to renovation, the Anderson Building was only open during scheduled program times. Depending on the activity, often there was not a building supervisor present; supervision was up to the activity leader. The focus of the new programming is to increase available opportunities to use the gymnasium on a drop in basis, at an affordable price. A combined swimming pool and gymnasium fee has been created for youth to use both areas during the summer.

To support the new level of programming, the Parks and Recreation Department is requesting a new benefitted, full-time Recreation Coordinator to supervise the programming, operation and maintenance of the Anderson building, including the supervision of a part-time building supervisor, gym attendant and custodial contract.

A supplemental budget appropriation is requested in the amount of \$90,220 for 2019 to fund those additional expenditures required for these enhanced recreation services at the Anderson Building.
